The image shows a screenshot of a Notepad window titled "Bloc de notas". The window has a menu bar with "Archivo", "Editar", "Herramientas", and "Ayuda". The text inside the window is a Visual Basic module named "Module funciones". It contains a summary comment for a subroutine "Habilita opciones del menú." and the code for the "Public Sub habilitar()" subroutine, which sets the Enabled property to True for several menu items: "FrmIni.DeshacerMnu", "FrmIni.CortarMnu", "FrmIni.CopiarMnu", "FrmIni.EliminarMnu", "FrmIni.BuscarMnu", and "FrmIni.BuscarSMnu". The code ends with "End Sub". The status bar at the bottom shows "Líneas: 37", "Palabras: 72", and "Caractéres: 850".

```
Module funciones

.....

'Formulario Bloc.vb
.....

''' <summary>
''' Habilita opciones del menú.
''' </summary>
Public Sub habilitar()

    FrmIni.DeshacerMnu.Enabled = True
    FrmIni.CortarMnu.Enabled = True
    FrmIni.CopiarMnu.Enabled = True
    FrmIni.EliminarMnu.Enabled = True
    FrmIni.BuscarMnu.Enabled = True
    FrmIni.BuscarSMnu.Enabled = True

End Sub
```

Líneas: 37 Palabras: 72 Caractéres: 850
